SHOSHONE COUNTY

COUNTY AUDITOR'S CERTIFICATE

For the Fiscal Year Ended September 30, 2018

COUNTY OF SHOSHONE
STATE OF IDAHO

Tamie Eberhard, being first duly sworn, deposes and says that she is the County Clerk of Shoshone County, Idaho, that to the best of her knowledge the following is a full, true, and correct and complete statement of the financial condition of said county for the year ended September 30, 2018.

Tamie Eberhard,
County Clerk

Subscribed and sworn to before me this ____ day of _____, 20__.

Notary Public

Approved by the Board of Commissioners of Shoshone County, Idaho in regular session this ____ day of _____, 20__.

Mike Fitzgerald, Commissioner Jay Huber, Commissioner John Hansen, Commissioner

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the County Commissioners
Shoshone County, Idaho
Wallace, Idaho 83873

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Shoshone County, Idaho, as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of

the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Shoshone County, Idaho, as of September 30, 2018, and the respective changes in financial position and, where applicable, cash flows, and the respective budgetary comparison for the General Fund, Road Fund, and Indigent Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11 and the net pension liability related schedules on page 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Shoshone County's basic financial statements. The introductory section and supplementary information are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Requirements by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 12, 2019 on our consideration of the County of Shoshone, Idaho's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Shoshone County, Idaho's internal control over financial reporting and compliance.

MANAGEMENT DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2018

As management of Shoshone County, Idaho (County), we offer readers of the County's financial statements this narrative discussion, overview, and analysis of the financial activities of the County for the fiscal year ending September 30, 2018.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Shoshone County's basic financial statements. The County's basic financial statements have three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

This report also contains supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The statements present an aggregate view of the County's finances. They contain useful long-term information for the just completed fiscal year.

The Statement of Net Position presents information on all of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the County, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the net position of the County changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. In the statements, the County's activities are all classified as government activities or business-type activities.

Fund Financial Statements: A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund statements generally report operations in more detail than the government-wide statements.

Some funds are required by state law and bond covenants. The County establishes other funds to control and manage money for particular purposes (i.e. repaying long-term debt.) The County has three types of funds: Governmental, Proprietary, and Fiduciary.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary funds: Proprietary funds are used to report activities where user fees and charges are intended to cover the cost of providing a service. Proprietary net position and activities are reported separately in the fund financials.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs.

Notes to the Financial Statements: The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information: The net pension liability schedules provide additional information related to the funding status of PERSI.

Supplementary Information: The supplementary information includes budgetary and financial information for the combining statements for nonmajor funds (which are shown in the fund financial statements in a single column). This information is provided to address certain specific needs of various uses of the report.

Basis of Accounting

The County's government-wide financial statements are presented on the accrual basis of accounting. Basis of accounting is a reference to when financial events are recorded, such as the timing for recognizing revenues, expenses, and related assets and liabilities. Under the accrual basis of accounting, receipts and disbursements and related assets and liabilities are recorded when revenues are earned and obligations incurred. Also, infrastructure asset amounts (roads and bridges) and the related depreciation are recorded.

Financial Analysis of the County as Whole

Statement of Net Position

For the fiscal year ended September 30, 2018, net position of the County increased by \$1,646,833:

Governmental Activities

Property taxes and Intergovernmental revenues were the largest sources of general revenue, making up 31.15% and 33.49% of total governmental revenues, respectively.

The County's grant revenues from federal, state and local sources made up \$2,857,331 or 20.86% of total governmental revenues.

The general government function accounted for \$4,083,023 of the \$12,162,909, or 33.69% of total expenses for governmental activities. The main components of the expenses under this function are related to salaries and benefits. The second largest function of expenses was public safety, accounting for \$3,728,553 and representing 30.66% of total governmental expenses.

Overall, the net position for governmental activities increased by \$1,534,024.

Business-Type Activities

The net position for business-type activities increased by \$112,809 during the year, with the major revenue source being charges for services at \$980,130.

The major category of expenses are related to solid waste operations of \$1,061,439, which accounts for all of the expenses.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. Certain funds experienced changes from the prior year and are highlighted as follows.

1. Grant Management – A new Grant Management Policy was approved by the BOCC in 2018. The new policy requires quarterly reports from all Grant Administrators and the BOCC, to the Auditor within 30 days of Quarter end. The Auditor will review and reconcile with Computer Arts all revenue and expenses for the quarter. It also requires the Grant Administrator to process all invoices for year-end no later than November 30th so the work that was done in the prior year is accounted for in that year and not in the new fiscal year. This policy was the result of prior issues such as the Auditors office not being notified when Grant Administrators were having trouble with keeping track of the grant expenses and revenue, posting to invalid funds, not providing the Auditor with a copy of all new grants, and addressing over budget issues in a timely manner.
2. Journal Vouchers (JVs) – A new process will be put into place in 2018-2019. Each JV will be reviewed by the Elected County Auditor.
3. Current Expense – In the past, the County received Forest Reserve Funding from Congress to help support Rural School & County Road (SRS). In 2017 Congress did not

approve those funds. Congress did approve the funding in 2018 and the County received SRS funding of \$2,017,160.66. The County also received an additional \$765,528 Payment In Lieu of Taxes (PILT) in 2018, both of which significantly helped our financial position.

- a. Sheriff's Office - Payroll & benefits were increased for the Sheriff's office to reduce the loss of work force to outside agencies. The increase in wages did not appear to reduce the amount of personnel leaving to join other agencies.
 - b. Auditor experienced significant delays in receiving financial information from the Sheriff's office which impacted the Trial Financial Statement. Meetings were held between the Auditor and Sheriff's Office identifying the issues. Civil Clerk held \$17,164 last year and \$2,874 from this year in the civil checking account for 17 months. All funds are accounted for and processes were put in place to resolve the issues.
 - c. Billing for BLM Patrolling will be done by the Sheriff's Office monthly.
 - d. All funds received by the Sheriff's Office will be turned into the Auditors Office on a daily basis.
 - e. Changes in Idaho Statutes established that all Public Defender expenses come out of the County Indigent Budget rather than Current Expense. This will help the Current Expense fund balance.
4. Road Department –The Budget was increased due to unanticipated revenue from grants for specific projects which were not included during the budget process. The new Grant Management Policy requires that all new grants be provided to the Auditor when signed and that they are reviewed quarterly. This process will ensure that expenses and revenues associated with those grants are monitored throughout the budget process and that the BOCC can address overages in a timely manner. The processing invoices and payments no later than November 30th will ensure they are accounted for in the appropriate fiscal year.
 5. Solid Waste – Due to a clerical error during the Budgeting Process, the Solid Waste Budget was opened to correct the error and it was approved by the BOCC.
 6. Snowmobile – Groomer over spent their budget but there was enough cash to cover it.
 7. Airport – Unexpected income and expense regarding airport fuel. The Budget was opened to account for it and it was approved by the BOCC.

Fund Budgetary Highlights

1. General Fund - The General Fund expenditures came in lower than budgeted for. The fund balance will increase due to PILT funding with an increase of \$765,528. This came in unexpected as no SRS funds came in 2016-2017. The Public Defender's expenses were

moved to Indigent Budget for the 2018-2019 budget. This should create a larger fund balance for Current Expense as well.

2. Road Fund - The Road Department fund received funding for the SRS (Title I) for the year 2017-2018 from Congress.
3. Indigent Budget has opened accounts for Public Defenders expenses.
4. Solid Waste - Opening the budget for this year occurred do to error on expense not budget for. The Solid Waste Fund had plenty of cash funds to cover as income came in.
5. Groomer Account - Had some unexpected repairs and cash covered.

Economic Conditions and Outlook

Shoshone County is primarily supported by the mining industry, a car dealership and tourism. It is in the Panhandle of Idaho. It is home to the fabled Coeur d'Alene Mining District, one of the richest mining districts in the world. Wallace is the county seat and located on I-90 approximately 13 miles from the Montana border. The primary business bases are Hecla Mining Company which continues to be on strike for the year of 2017-2018 budget year. U.S. Silver Mining Corp and Dave Smith Motors, two ski areas along with extensive snowmobile trails system provided winter recreation. An extensive ATV trail system provide the summer tourist draw. The Trail of the Coeur d'Alene runs through Shoshone County on the old railroad bed. A well-known bike trail on the railroad beds is known now nationally as the Hiawatha Bike Trail. Many tourists have come to the Silver Valley to experience the trail which is primary located in the Shoshone County.

Shoshone County's long mining history, it has become the site of one of the largest EPA Super Fund sites in the nations. The EPA cleanup continues to improve the landscape and cleanup in Shoshone County. It is still one of the major industries in providing jobs for the residents of Shoshone County. Repairs for roads damaged by remediation work continues this year. Cities are still working on major upgrades to sewer and water systems.

Shoshone County continues to offer a benefit package to its employees. The County is a member of PERSI, Public Employee Retirement System of Idaho. PERSI offers an Employee Elective 401 K Plan as well. A plan is also offered to employee elective #457 Plan. The County pays for medical, dental, vision, and term life insurance for benefited employees. There are 10 paid holidays, ½ day sick leave per month and a sick leave bank. Workman's Compensation is covered through the State Insurance Fund. When employee terminated, they receive accrued vacation pay and accrued compensation pay. Any unused sick leave is forfeited.

Capital Assets and Debt Administration

Capital Assets

Significant acquisitions made during the year consisted of the following purchases: repeater, backhoe loader, Ford Starcraft, utility trailer, three Dodge Rams, two Dodge Chargers, and continued work on road and bridge projects .

	<u>2017-2018</u>	<u>2016-2017</u>	<u>Change</u>
Land	573,919	573,919	-
Construction in progress	1,617,997	1,158,636	459,361

SHOSHONE COUNTY, IDAHO
Wallace, Idaho

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2018**

Net change in fund balances - governmental funds 1,661,485

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, in the Statement of Activities the cost of these assets are allocated over their estimated useful lives and reported as depreciation expense.

Capital additions	737,829	
Depreciation expense	<u>(981,674)</u>	(243,845)

Some property taxes will not be collected for several months after the County's fiscal year end, and are not considered as "available" revenues in the governmental funds. Instead, they are recorded as deferred revenues. They are however, recorded as revenues in the Statement of Activities.

(13,059)

Proceeds from the issuance of long-term debt are recorded as revenues for governmental funds, but the issuance increases long-term debt in the Statement of Net Position. Repayment of the principal of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term debt in the Statement of Net Position:

Capital lease proceeds	(65,498)	
Capital lease principal payments	25,946	
Notes payable principal payments	<u>23,345</u>	(16,207)

Net pension liability adjustments:

Fiscal year 2017 employer PERSI contributions recognized as pension expense in the current year	108,017	
Fiscal year 2018 employer PERSI contributions deferred to subsequent year	(113,556)	
Pension related amortization expense	<u>123,299</u>	117,760

Some expenses in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. This is the amount by which compensated absences incurred exceeded the amount paid during the year.

27,890

Total change in net position - governmental activities \$ 1,534,024

SHOSHONE COUNTY, IDAHO
Wallace, Idaho

NOTES TO THE FINANCIAL STATEMENTS
September 30, 2018

NOTE 1 Summary of Significant Accounting Policies

Shoshone County, Idaho (the “County”) was incorporated in January 1861 and operates under a commissioner form of government, with supervision of various departments by elected officials as provided by the State Constitution. Shoshone County, Idaho provides the following services: public safety (sheriff), sanitation, health and social services, welfare, culture-recreation, public works, planning and zoning and general administrative services. The County grants credit to individuals and businesses utilizing utility and solid waste services, substantially all of who are residents in the County.

The financial statements of Shoshone County, Idaho have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below:

Reporting Entity

Shoshone County, Idaho is the basic level of government, which has financial accountability, and control over all activities related to county government in Shoshone County. The County receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. However, the County is not included in any other governmental “reporting entity” as defined by GASB pronouncements, since Board members are elected by the public and have decision making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and have primary financial accountability for fiscal matters. In addition, there are no component units as defined by Governmental Accounting Standards Board Statement 14 as amended by GASB 61, which are included in the County’s reporting entity.

Basis of Presentation

Government-Wide Statements – The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall County government, except for fiduciary activities. Both governmental activities, which are generally financed through taxes, intergovernmental revenues, and other non-exchange revenues, and business-type activities, which are financed in whole or in part by fees charged to external parties for goods or services, are included.

NOTE 1 Summary of Significant Accounting Policies (Continued)

The Statement of Net Position presents the County's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of net capital assets reduced by the outstanding balances of any related debt obligations attributable to the acquisition, construction, or improvement of those assets or the related debt obligations.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed through enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function (governmental activities) or identifiable activity (business-type activities) is offset by program revenues.

-) Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable with a particular function.
-) Program revenues include (1) charges paid by the recipients of goods or services offered by the programs and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported, instead, as general revenues.
-) Indirect expenses have been allocated to the programs which best represent the nature of the expenditures as determined by management.

Fund Financial Statements – The fund financial statements provide information about the County's funds, including fiduciary funds. Separate statements for each fund category (governmental, business-type and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

NOTE 1 Summary of Significant Accounting Policies (Continued)

The County reports the following major governmental funds:

-) General Fund: This is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
-) Road Fund: This fund accounts for the maintenance of County roads.
-) Indigent Fund: This fund accounts for the provision of social services assistance to County residents.
-) Grant & Match Fund: These funds account for the revenues and expenditures related to grants received by the County.

The County reports the following proprietary fund:

-) Solid Waste Fund: This fund accounts for the services and equipment used provide solid waste management to the County.

Additionally, the County reports the following funds:

-) Agency Funds. These funds report resources held for other governmental agencies, taxing districts and special purpose trusts on a short-term basis in a purely custodial capacity.

Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements (except agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. State support and grant revenues are susceptible to accrual.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenue available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. Claims, judgments, and compensated absences are recognized as expenditures only to the extent they are normally expected to be paid from existing unrestricted fund balance.

NOTE 1 Summary of Significant Accounting Policies (Continued)

General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. It is the County's policy to first apply restricted resources to such programs, followed by unrestricted resources.

Budgets – Budgets are adopted on a basis consistent with governmental accounting principles. Annual appropriated budgets are adopted for the general, special revenue and proprietary funds. All annual appropriations lapse at year-end. The budget may be amended after a public hearing is held.

The County Commissioners follow these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the first Monday in August, the County Clerk submits to the County Commission a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures only. It is published publicly on or before the third week in August.
2. Public hearings are conducted at the Courthouse to obtain taxpayer comments.
3. Prior to the first Tuesday after the first Monday of September, the budget is legally adopted by the Commission.

Cash and Cash Equivalents – Cash includes amounts in demand deposits and short-term investments that do not meet the definition of an investment per GASB 72. State statute and commission investment policy authorizes the County to invest in obligations of the U.S. Treasury, the State of Idaho or county, city or other taxing districts of the State of Idaho. Commercial paper, corporate bonds, repurchase agreements, and investments are stated at cost. Interest income is defined as non-operating revenue.

Statement of Cash Flows – For the purposes of the statement of cash flows, proprietary funds consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Allowance for Uncollectible Amounts – The County believes that no allowance for uncollectible accounts is needed based on past collection experience.

Encumbrances – The County does not follow the practice of encumbering funds at year-end.

Inventory – Inventory is valued at zero. All costs of expendable supplies are expensed when supplies are purchased.

NOTE 1 Summary of Significant Accounting Policies (Continued)

Short Term Interfund Receivables/Payables – During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These short-term receivables and payables are classified as "due from other funds" or "due to other funds" on the governmental funds balance sheet. To the extent possible, these balances have been eliminated on the statement of net position.

Capital Assets – Capital assets are reported at actual or estimated historical cost based on appraisals of deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

The Board of Commissioners has set a capitalization threshold of \$5,000. All purchases and improvement to facilities that are not considered repairs are capitalized and depreciated using the straight-line method in the governmental and proprietary funds. Useful lives are as follows:

Buildings	20 - 40 years
Improvements other than buildings	10 - 50 years
Equipment	5 - 25 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized.

Compensated Absences – It is the County's policy to permit hourly employees to accumulate comp time. It is the County's policy to permit employees to earn and carryforward unused vacation and sick pay benefits. In the event of separation, an employee is reimbursed for accumulated vacation days up to a maximum of fifteen days. In the event of separation, an employee is reimbursed for accumulated comp time. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees separate from service with the County. The balance of accumulated vacation and comp time payable is reported on the statement of net position as accrued compensated absences.

Long Term Obligations – In the government-wide financial statements, and proprietary funds types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type of Statement of Net Position.

Restricted Resources – The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Deferred Revenue – Deferred revenue in the governmental funds represents property taxes receivable recorded but not collected within 60 days of the end of the accounting period.

NOTE 1 Summary of Significant Accounting Policies (Continued)

Unavailable Tax Revenue – Unavailable tax revenue represents the property taxes levied for 2018 that are measurable but unavailable to the County, therefore recorded as a deferred inflow of resources in both governmental fund and government-wide financial statements.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan’s fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balance – In the fund financial statements, *non-spendable* fund balances include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The *restricted* fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers (grants or lenders) or through enabling legislation. The *committed* fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority. Amounts in the *assigned* fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. The Board of Commissioners are the body authorized to assign amounts to a specific purpose, and typically do so when a specific revenue source is received and a special revenue fund is thereby established. *Unassigned* fund balance is the residual classification for the government’s general fund and includes all spendable amounts not contained in the other classifications.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date of the audit report. This is the date the financial statements were available to be issued. Management has concluded that no material subsequent events have occurred.

NOTE 2 Cash and Investments

Deposits

Cash On Hand

Cash on hand totaled \$2,850 at September 30, 2018.

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Checking and Savings Accounts	<u>\$2,202,967</u>	<u>\$2,178,603</u>

Checking and savings accounts were held at various banking institutions. At each bank, FDIC insures up to \$250,000 for the combined amount of all time and savings accounts, plus an additional \$250,000 for the combined amount of all interest-bearing and noninterest-bearing demand deposit accounts. The balance of \$715,690 at Columbia Bank are in excess of the FDIC insured limit and uncollateralized.

Investments

Detail of investments at September 30, 2018 are as follows:

	<u>Rate</u>	<u>County Funds</u>	<u>Fiduciary Funds</u>	<u>Total</u>
State Investment Pool	Variable	4,693,534	-	4,693,534
Multibank Securities	Variable	400,000	-	400,000
Retirement Solutions	Variable	-	185,138	185,138
Total		<u>\$ 5,093,534</u>	<u>\$ 185,138</u>	<u>\$ 5,278,672</u>

Investment Maturities

	<u>Book Value</u>	<u>Market Value</u>	<u>Less Than One Year</u>	<u>Greater Than One Year</u>
State Investment Pool	4,693,534	4,693,534	4,693,534	-
Multibank Securities	400,000	399,363	299,875	99,488
Retirement Solutions	185,138	185,138	185,138	-
Total	<u>\$ 5,278,672</u>	<u>\$ 5,278,035</u>	<u>\$ 5,178,547</u>	<u>\$ 99,488</u>

The State Treasurer's Local Government Investment Pool is managed by the State of Idaho Treasurer's office. All funds are invested in accordance with Section 67-1210 and 67-1210A of Idaho Code. Authorized investments include bonds, treasury bills, interest-bearing notes, and other obligations of the U.S. Government, general obligation or revenue bonds of the State of Idaho or other local governments within the state of Idaho, bonds, debentures, or other similar obligations issued by the farm credit system or by public corporations of the state of Idaho, repurchase agreements covered by any legal investment for the state of Idaho, tax anticipation bonds or notes and income and revenue anticipation bonds or notes of taxing districts of the state of Idaho, revenue bonds of institutions of higher education of the state of Idaho, and time deposits and savings accounts in amounts not to exceed applicable insurance limits. The primary objectives of the investment pool, in order of priority, are safety, liquidity, and yield.

NOTE 2 Cash and Investments (Continued)

Participants have overnight availability to their funds, up to \$10 million. Withdrawals of \$10 million or more require three business days' notification.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. Custodial credit risk for investments is the risk that in the event of the failure of the counter party (e.g. broker-dealer) to a transaction, the County will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The County's policy is that deposit accounts will be covered by FDIC or NCUA insurance, except for highly-liquid accounts.

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization such as Moody's or Standard & Poor's. At year-end, the County did not hold any investments and is not subject to this risk.

Interest rate risk is the risk that changes in market interest rates will adversely impact the fair value of an investment. Investments that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rate. The County's policy is to hold investments covered by the FDIC or to invest in US Government-backed securities. In addition, it is the intent of management to hold the securities to maturity thereby reducing the interest rate risk.

Concentration of credit risk is the risk that concentration of investments with one issuer represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The Governmental Accounting Standards Board has adopted a principal that governments should provide note disclosure when five percent of the total investments of the entity are concentrated in any one issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The County has no policy limiting the amount it may invest in any one issuer.

NOTE 3 Property Tax

The County's property tax is levied each October on the value listed as of the prior January 1 for all real and personal property located in the County. A revaluation of all property is required to be completed no less than every five years. The market value as of September 2017, upon which the 2017 levy was based, was \$918,328,294 for the County and was \$879,184,511 for the Road fund.

Various sections of the Idaho Code limit the amount that may be levied for general and other fund purposes. The 2017 levy was 0.4341171% of market value for the County and .0282268% of market value for the Road fund.

Taxes are due in two equal installments on December 20th and June 20th of the next year following the levy date. Interest and penalty charges begin to accrue following the installment due date. The total 2017 tax levy was \$4,284,214, of which 96.40% was collected and \$154,200 remains unpaid as of September 30, 2018.

NOTE 3 Property Tax (Continued)

Property taxes levied for 2017 and prior years and uncollected as of September 30, 2018 are shown as taxes receivable. To the extent that they are not collected by the County by November 30, 2018, a deferred revenue account in that amount is established in the governmental funds.

Total taxes receivable as of September 30, 2018	268,330
Less: Taxes collected by November 30, 2018	(24,056)
Total deferred tax revenue	<u>\$ 244,274</u>

In accordance with GASB 33, *Accounting and Financial Reporting for Nonexchange Transactions*, the County has recognized the 2018 property tax levy as a receivable. This levy is an enforceable legal claim created during the fiscal year. The total property tax levy for 2018 of \$4,178,295 is considered unavailable at September 30, 2018 and is recorded as a deferred inflow of resources.

NOTE 4 Capital Assets

Capital asset activity for the year ended September 30, 2018 was as follows:

Governmental Activities:

	<u>Balance 9/30/2017</u>	<u>Additions</u>	<u>Disposals</u>	<u>Balance 9/30/2018</u>
Capital assets, depreciated				
Buildings	2,740,312	-	-	2,740,312

Capital assets, not depreciated				
Land	573,919	-	-	573,919
Construction in progress	1,158,636	459,361	-	1,617,997
Total capital assets, not depreciated	<u>1,732,555</u>	<u>459,361</u>	<u>-</u>	<u>2,191,916</u>
Total capital assets, net	<u>\$ 14,645,842</u>	<u>\$ (243,845)</u>	<u>\$ -</u>	<u>\$ 14,401,997</u>

NOTE 4 Capital Assets (Continued)

During 2018, depreciation expense was charged to functions as follows:

General government	163,144
Public safety	112,832
Public works	697,877
Welfare	2,000
Culture and recreation	<u>5,821</u>
Total	<u>\$981,674</u>

Business-Type Activities:

	<u>Balance 9/30/2017</u>	<u>Additions</u>	<u>Disposals</u>	<u>Balance 9/30/2018</u>
Capital assets, depreciated				
Buildings	915,407	-	-	915,407
Equipment	927,187	191,204	-	1,118,391
Total capital assets, depreciated	<u>1,842,594</u>	<u>191,204</u>	<u>-</u>	<u>2,033,798</u>
Less: accumulated depreciation				
Buildings	(495,294)	(22,885)	-	(518,179)
Equipment	(855,056)	(29,146)	-	(884,202)
Total accumulated depreciation	<u>(1,350,350)</u>	<u>(52,031)</u>	<u>-</u>	<u>(1,402,381)</u>
Net capital assets, depreciated	<u>492,244</u>	<u>139,173</u>	<u>-</u>	<u>631,417</u>
Capital assets, not depreciated				
Land	50,000	-	-	50,000
Total capital assets, not depreciated	<u>50,000</u>	<u>-</u>	<u>-</u>	<u>50,000</u>
Total capital assets, net	<u>\$ 542,244</u>	<u>\$ 139,173</u>	<u>\$ -</u>	<u>\$ 681,417</u>

During 2018, \$52,031 of depreciation expense was charged to the business-type activities.

NOTE 5 Defined Benefit Pension Plan

In accordance with GASB 68, *Accounting and Financial Reporting for Pensions*, which became effective for the year ended September 30, 2015, the financial reporting and note disclosures are based off the most recent audited financial statements of PERSI, which was completed for the period ended June 30, 2018. All amounts are as of June 30, 2018 unless otherwise noted.

Plan Description

The County contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various

NOTE 5 Defined Benefit Pension Plan (Continued)

participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months. Amounts in parenthesis represent police/firefighters. The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% (72%) of the employer rate. As of September 30, 2018 it was 6.79% (8.36%). The employer contribution rate is set by the Retirement Board and was 11.32% (11.66%) of covered compensation. Shoshone County's employer contributions required and paid were \$504,040, \$448,492 and \$454,823, for the years ended September 30, 2018, 2017 and 2016, respectively.

NOTE 5 Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2018, the County reported a liability for its proportionate share of the net pension liability as of June 30, 2018. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2018, the County's proportion was 0.1231598 percent.

The County's pension expense (revenue) is calculated and made available as part of PERSI's annual audit. The pension expense (revenue) for the year ending June 30, 2018 was calculated at \$364,325.

At September 30, 2018, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	199,414	137,199
Changes in assumptions or other inputs	118,208	-
Net difference between projected and actual earning on pension plan investments	-	201,838
Change in proportionate Share	59,835	248,696
Employer contributions subsequent to the measurement date	<u>120,984</u>	<u>-</u>
Total	<u>\$498,441</u>	<u>\$587,733</u>

\$120,984 reported as deferred outflow of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2019.

NOTE 5 Defined Benefit Pension Plan (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

<u>For the Year</u> <u>Ending June 30:</u>	<u>Amount to be</u> <u>Recognized</u>
2019	147,669
2020	17,400
2021	(148,860)
2022	(37,624)

Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increases including inflation	3.75%
Investment rate of return	7.05% net of investment expenses
Cost-of-living adjustments	1.00%

Mortality rates were based on the RP – 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of PERSI's assets.

NOTE 5 Defined Benefit Pension Plan (Continued)

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

Asset Class	Target Allocation	Long - Term Expected Nominal Rate of (Arithmetic)	Long - Term Expected Real Rate of Return (Arithmetic)
Core Fixed Income	30.00%	3.05%	0.80%
Broad US Equities	55.00%	8.30%	6.05%
Developed Foreign Equities	15.00%	8.45%	6.20%
Assumed Inflation - Mean		2.25%	2.25%
Assumed Inflation - Standard Deviation		1.50%	1.50%
Portfolio Arithmetic Mean Return		6.75%	4.50%
Portfolio Standard Deviation		12.54%	12.54%
Portfolio Long-Term (Geometric) Expected Rate of Return		6.13%	3.77%

Portfolio Long-Term (Geometric) Expected Rate of Return, Net of Investment Expenses		5.73%	3.37%
Portfolio Long-Term Expected Real Rate of Return, Net of Investment Expenses			4.19%
Portfolio Standard Deviation			14.16%
Valuation Assumptions Chosen by PERSI Board			
Long-Term Expected Real Rate of Return, Net of Investment Expenses			4.05%
Assumed Inflation			3.00%
Long-Term Expected Geometric Rate of Return, Net of Investment Expenses			7.05%

Discount Rate

The discount rate used to measure the total pension liability was 7.05%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.05 percent, as well as what the Employer's proportionate

NOTE 5 Defined Benefit Pension Plan (Continued)

share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.05 percent) or 1-percentage-point higher (8.05 percent) than the current rate:

	1% Decrease (6.05%)	Current Discount Rate (7.05%)	1% Increase (8.05%)
Employer's proportionate share of the net pension liability (asset)	\$4,547,432	\$1,816,629	\$(444,589)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the pension plan

At June 30, 2018, the County reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

NOTE 6 Capital Lease

The County leases various vehicles through capital leasing arrangements all of which contain purchase options throughout the lease term and are payable for from governmental funds. The capital equipment leases are arranged through lease financing agreements with various banks and leasing institutions. The arrangements provide for annual payments over five years, and interest rates at 3.9%.

	Governmental Activities	Business-type Activities	Total
Capital leases beginning of year	136,883	-	136,883
Additions	65,498	116,313	181,811
Reductions	(25,946)	(24,861)	(50,807)
Capital leases end of year	176,435	91,452	267,887
Less: current portion	(48,709)	(21,485)	(70,194)
Total long term portion	<u>\$ 127,726</u>	<u>\$ 69,967</u>	<u>\$ 197,693</u>

NOTE 6 Capital Lease (Continued)

Future minimum annual lease payments under these capital leases at September 30, 2018 are as follows:

Fiscal Year Ended September 30,	Amount
2019	81,027
2020	74,787
2021	61,583
2022	51,875
2023	26,553
Minimum lease payments	295,825
Less: Interest	(27,938)
Present value of minimum lease payments	<u>\$ 267,887</u>

NOTE 7 Long Term Liabilities

A summary of changes in long-term debt of the County for the year ended September 30, 2018 is as follows:

	Balance 9/30/2017	Acquired	Principal Payments	Balance 9/30/2018	Due Within One Year
Columbia Bank Loan	23,345	-	(23,345)	-	
Total governmental activities	<u>\$ 23,345</u>	<u>\$ -</u>	<u>\$ (23,345)</u>	<u>\$ -</u>	<u>\$ -</u>

NOTE 8 Transfers Between Funds

The primary purpose of interfund transfers is to redistribute money as deemed appropriate by management. Operating transfers between funds occurred as follows:

Fund	To	From
Liability Insurance	-	5,000
Self Insurance	5,000	-
Total	<u>\$ 5,000</u>	<u>\$ 5,000</u>

NOTE 9 Excess of Actual Expenditures over Budget in Individual Funds

The following funds had an excess of actual expenditures over budget for the year ended September 30, 2018:

Fund	Excess
Self Insurance	7,713
Snowmobile	475
Airport	30,002

NOTE 10 Deficit Fund Balance

The following fund had a deficit balance at September 30, 2018:

<u>Fund</u>	<u>Balance</u>
Self Insurance	(723)

NOTE 11 Risk Management and Contingencies

The ICRMP maintains reserves and deposits to pay total claims to an aggregate maximum of \$5 million. Each claim bears a maximum liability to ICRMP of \$250,000. ICRMP reinsures, through Lloyd's of London, for any loss in excess of \$250,000. ICRMP has never filed a claim through the reinsurance.

Loss exposure to the County consists of a \$4,000 maximum total deductible per claim presented to the County. Excluded from the maximum total deductible per policy period are deductibles paid for flood and/or earthquake, and boiler and machinery losses. The deductibles for these occurrences are \$10,000 and \$5,000 per incident, respectively, with no annual limit.

ICRMP provides loss prevention training to enable its subscribers to minimize their exposure to loss through implementation of proper policies and procedures.

NOTE 12 Interfund Balances

The following funds had Interfund balances as of September 30, 2018:

<u>Fund</u>	<u>Due To</u>	<u>Due From</u>
General	-	100,344
Market Value Evaluation	1,145	-
Grant and Match	99,199	-
Total	<u>\$ 100,344</u>	<u>\$ 100,344</u>

NOTE 13 Contingent Liabilities

The County participates in several federal financial assistance programs. These programs are subject to financial and compliance audits by the grantors or their representatives. There is then the possibility of potential County liability as determined by a sponsoring organization audit, if such an audit would occur.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
September 30, 2018

NOTE 1 Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Shoshone County, Idaho, under programs of the federal government for the year ended September 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Shoshone County, Idaho, it is not intended to and does not present the financial position, changes in net position, or cash flows of Shoshone County, Idaho.

NOTE 2 Summary of Significant Accounting Policies

1. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
2. Pass-through entity identifying numbers are presented were available.
3. Shoshone County, Idaho has elected not to use the 10 percent de minimis indirect costs rate as allowed under Uniform Guidance.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of County Commissioners
Shoshone County, Idaho
Wallace, Idaho 83873

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Shoshone County, Idaho as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise Shoshone County, Idaho’s basic financial statements and have issued our report thereon dated April 12, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Shoshone County, Idaho’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Shoshone County, Idaho’s internal control. Accordingly, we do not express an opinion on the effectiveness of Shoshone County, Idaho’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, therefore, material weaknesses or significant deficiencies may exist that were not identified.

Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency (Finding 2018-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shoshone County, Idaho's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Shoshone County, Idaho's Response to Findings

Shoshone County, Idaho's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Shoshone County, Idaho's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of County Commissioners
Shoshone County, Idaho
Wallace, Idaho 83873

Report on Compliance for Each Major Federal Program

We have audited Shoshone County, Idaho's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Shoshone County, Idaho's, major federal programs for the year ended September 30, 2018. Shoshone County, Idaho's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Shoshone County, Idaho's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Shoshone County, Idaho, compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Shoshone County, Idaho's compliance.

Opinion on Each Major Federal Program

In our opinion, Shoshone County, Idaho, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2018.

Report on Internal Control over Compliance

Management of Shoshone County, Idaho is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Shoshone County, Idaho's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Shoshone County, Idaho's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SHOSHONE COUNTY, IDAHO
Wallace, Idaho

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
For the Year Ended September 30, 2018

Finding 2018-001	Subsidiary ledgers not reconciled
Criteria	Subsidiary ledgers should be reconciled to the general ledger on a routine basis by appropriate personnel.
Condition	Subsidiary ledgers have not been reconciled to the general ledger.
Cause	The County has not formalized and implemented a reconciliation process.
Effect:	Subsidiary ledgers that do not balance to the general ledgers cause a potential for material misstatement in the general ledger balances.
Recommendation:	We recommend the subsidiary ledgers be reconciled to the general ledger on a routine basis.
Management's Response:	Subsidiary ledgers are important to keep reconciled to the general ledger and a process will be implemented to reconcile on a routine basis.

SHOSHONE COUNTY, IDAHO
Wallace, Idaho

STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2018

Finding 2017-001	Subsidiary ledgers not reconciled
Condition	Subsidiary ledgers have not been reconciled to the general ledger.
Status	The finding still exists and is reported as Finding 2018-001.
