From: Jim Cason, Public Works Director

Re: RE-HEARING ON A PETITION FOR REHEARING TO VALIDATE A PORTION OF WEST FORK PINE CREEK ROAD, PINEHURST, SHOSHONE COUNTY, IDAHO

Proposal:

The Applicant is petitioning the County to validate a portion of West Fork Pine Creek Road.

Discussion:

Starting at the junction of the West Fork And East Fork, Shoshone County currently maintains 3.19 miles of the West Fork Pine Creek Road. Public Works did find paperwork from The Federal Disaster Assistance Administration 415-DR-11 dated back to 1974 pertaining to a storm/flood disaster on the West Fork of Pine Creek. It appears that the county submitted for reimbursement from the FDAA for county wages, vehicle usage and contract invoices. We didn't find anything showing whether the county was reimbursed or not from FDAA.

Respectfully,

Jim Cason
Shoshone County Public Works
